APPOINTMENTS TO THE BOARD

Governor Ashcroft appointed Joyce J. Neaves, R.N., M.S.N., to the Board on October 10, 1985. Ms. Neaves holds a Diploma in Nursing from General Hospital School of Nursing, Kansas City, MO, a B.A. in Psychology from University of Missouri, Kansas City, MO, and a Masters of Nursing from University of Kansas, Lawrence, KS. She will be representing Diploma Education on the Board, replacing Marilyn Meinert whose term expired June 1, 1985. Ms. Neaves term expires June 1, 1989.

Governor Ashcroft also reappointed Brenda Ernst, R.N., B.S.N., M.A. Ms. Ernst was originally appointed to the Board to fill the unexpired term of Dr. Kate Schejbal. Her term expires June 1, 1989.

SCHEDULE OF BOARD MEETING DATES

MEETING DATE	PLACE	AGENDA ITEMS DEADLINE

DIRECTIONS TO MEETINGS OF THE MISSOURI STATE BOARD OF NURSING
DIRECTIONS ARE SUBJECT TO CHANGE DUE TO EXTENSIVE ROAD CONSTRUCTION

NOTE: Regular meetings are held at the Division of Professional Registration, 3523 North Ten Mile Drive, Jefferson City, MO, beginning at 8:30 each day, unless otherwise designated. Meetings are open to the public except for discussion of licensure disciplinary problems. A Public Agenda is published for each meeting.

If you drive from the eastern part of the state via I-70, exit at the Kingdom City, Hwy. 54 West, State Capitol Exit. Proceed to Jefferson City via Hwy. 54 West, cross the bridge and take Hwy. 50 West, (Sedalia) Exit. Proceed on Hwy. 50 West to the stop light. Turn right. **At the 4-way stop turn left. Pass the Capital Mall, go right on Truman Blvd. Turn left at the first street past Exchange National Bank. Take the first right which is North Ten Mile Drive. Professional Registration is located in the first building on the right. It is a metal cream colored building.**

If you drive from the western part of the state via I-70, exit at Hwy. 63 South, Jefferson City Exit in Columbia. Proceed into Jefferson City via Hwy. 63 South. After crossing bridge proceed as described above.

If you drive from the western part of the state via Hwy. 50 East, turn left at the first light after passing city limits sign. Proceed as described above.

If you drive from the eastern part of the state via Hwy. 50 West, to all the way thru Jefferson City until you reach the Capital Mall. Turn right at stop light. Proceed as described above.

***NOTICE - PLEASE SHARE THIS INFORMATION - THE NEWSLETTER IS OUR MAIN SOURCE OF KEEPING YOU INFORMED OF THIS BOARD'S ACTIVITIES. WE WOULD APPRECIATE YOUR SHARING THIS WITH ALL INTERESTED PERSONS. PLEASE POST ON BULLETIN BOARD OR ROUTE THIS INFORMATION TO AS MANY NURSES AS POSSIBLE. THIS MAY BE REPRODUCED AND DISTRIBUTED.**

If you have an address/name change, please notify the Board office at P.O. Box 656, Jefferson City, MO 65102, please refer to your license number when corresponding with the office. If you want the address/name change applied to the newsletter mailing list please indicate so.

*****KNOW YOUR BOARD MEMBERS*****

**ELORA (SISSY) BORGMEYER
PUBLIC MEMBER**

The purpose of the Public Member of the Board is to represent the nursing consumer. Although I am a non-voting member, the Board does ask what my opinion is, so I do have input in the decision making process. As a representative for the nursing consumer and being a patient myself, I can't believe some of the things that happen. I feel that the individuals who violate the Nursing Practice Act deserve to be reprimanded and what the Board does is right. I've learned a lot and met a lot of nice people. It has been an honor and a pleasure to be associated with the State Board of Nursing. If I can ever be of assistance to you, please contact me.

ELORA BORGMEYER

**MARY E. MITCHELL, R.N.
REPRESENTING LICENSED PRACTICAL NURSE EDUCATION**

As a member of the Missouri State Board of Nursing, I hold the position of practical nurse educator. I am, therefore, a registered professional nurse who specializes in the educational process for practical nurses.

I view the mandate given me when I accepted the appointment to the Board as that of protecting the public through regulation of nursing licensure and accreditation of educational programs of nursing. The position of practical nurse educator exists, I believe, to bring to the Board the expertise of an individual familiar with the educational guidelines for practical nursing and insight into the expectations of Licensed Practical Nurses. I humbly accept that responsibility knowing full well my qualifications are not any greater than that of many other practical nurse educators.

Nursing is experiencing some major changes as we deal with an economy struggling to meet the demands of the health care community. It is an interesting time to be involved and I feel honored to have the opportunity to serve as a Board member. I encourage each of you to remain informed and urge you to make your views known. I welcome all comments you might have and greatly appreciate hearing from you.

MARY E. MITCHELL, R.N.

Congratulations to the following schools having a 100% pass rate on the July 16-17, 1985 NCLEX-RN.

St. John's Hospital School of Nursing
Southwest Mo. State University, West Plains Campus
Moberly Area Jr. College

Jefferson College
Missouri Southern State College
Southeast Mo. State University

Susan M. Moser	Missouri Southern State College, Joplin, MO	3055
Carol Ann Persinger	Three Rivers Community College, Poplar Bluff, MO	3055

PHILOSOPHY FROM FLO

One of the hallmarks of good mental health is a positive attitude. If you believe the complexion of decisions, actions and reactions are in part determined by one's basic personality, then you will agree that having a positive attitude is so much more desirable than being negative. Positive attitudes go hand in glove with assertiveness while negativism is more apt to reflect passive-aggressive behavior. Let me explain briefly! Assertive behavior is said to be a balance between aggression and passiveness/non-assertion. Balance is maintained by speaking and acting in a positive, direct and genuine manner. Assertiveness enables one to act in his own best interest and to stand up for himself without anxiety. In other words, assertive behavior can take the form of actions aimed toward taking control of one's future.

Continuing unrest in the nursing profession, due to the worsening economic situation/DRG's leading to changes in the arena of nursing coupled with indecisions and anxiety about entry levels into the profession has created a situation in which the future of the profession is very uncertain. Who knows what and where nursing will be in 10 years? In fact the scene changes so rapidly that even tomorrow is uncertain. How does this relate to assertiveness and positive behavior? If one is to remain healthy, s/he must have control over the direction life is taking rather than merely reacting to events that occur. An unhealthy situation can exist if one is continually putting out "brushfires" in order to merely survive. In the last thirty years, with increasing frequency as advancements in medicine and nursing occur, there have been groups of nurses who are busily reacting to impending "catastrophes", or putting out brushfires. A common expression is "we must block what **they** are doing to us". In all this time there has been very little, if any, positive planning for the future. As soon as the brushfire is extinguished, then it's business as usual. I reluctantly admit I have participated in this passive-aggressive behavior. I am not proud of that fact.

If our profession is to attain good mental and physical well being then we must cease merely reacting and begin to proact. Taking charge of the direction of growth of the profession is imperative in order to have a profession that meets the needs of the consumer as well as the members of the profession. It is necessary to be positive, to plan the growth of the profession in a timely, orderly fashion and then go about calmly and efficiently implementing those plans. We must be certain that we have a voice in those plans. We must be assertive, rather than passively letting others plan for us and then becoming angry and aggressive because we don't like what is planned. Passiveness informally gives someone else the right to speak and act for us. Permission for others to act in our behalf is automatically implied when we do nothing to help ourselves. Once we take control of the growth of our profession then there will be fewer occasions when anger will lead to aggression. Aggression is ultimately less productive than assertiveness because of the element of negative feelings it produces in others. Assertiveness will get one so much farther with less effort than will aggressiveness because of the greater amount of positiveness inherent in assertive behavior.

How should we go about assertively planning our future? Join the group/s who are making plans/decisions and become very active. We must acquaint ourselves on a personal level with the people and the processes that are involved in making decisions and then actively influence them. One vote and one voice does matter but it is of greater significance that we approach the situation with a positive attitude initially by realizing that we need to assess, to make plans, implement those plans and then evaluate their effectiveness to insure the promotion of health and well being of our profession.

FLO

CORRECTION - DEACONESS COLLEGE OF NURSING REQUEST AND MOTION MADE AT THE JUNE 23-27, 1985 MEETING

At the June meeting of the Missouri State Board of Nursing, Deaconess College of Nursing made the request for approval of an early exit option and curriculum changes. The motion made by the Board read:

1. Deaconess College of Nursing be allowed to continue to give the diploma in nursing and approve the generic baccalaureate program.
2. The early exit option requested by Deaconess College of Nursing as presented be denied.

COMMENTS FROM CAROL

NOTICE TO DIRECTORS AND COORDINATORS OF PROGRAMS OF NURSING IN MISSOURI

At the September 30 - October 3, 1985, meeting of the Missouri State Board of Nursing, the Board members adopted the following policy concerning State of Missouri Minimum Standards for Accredited Programs of Practical Nursing 4 CSR 200-3.120 Publication (Bulletin and/or Catalogue) and State of Missouri Minimum Standards for Accredited Programs of Professional Nursing 4 CSR 200-2.120 Publication (Bulletin and/or catalogue):

In addition to the publications for nursing programs delineated in Minimum Standards (Bulletin and/or Catalogue), the Student Handbook for the program of nursing will be considered as an official school publication. Therefore, in the event of school accreditation visits, and/or annual school accreditation reports, the student handbook for the program of nursing will also be evaluated for compliance with Minimum Standards.

The purpose of this policy is to facilitate inclusion of all required criteria in the school's publications in a cost effective manner. If you have questions regarding this, please do not hesitate to contact me.

DISCIPLINARY ACTION TAKEN AT THE SEPTEMBER 30 - OCTOBER 3, 1985 BOARD MEETING

1. LINDA JEAN GARRISON, L.P.N., #23829, MARSHALL, MO. REVOKED. IMPOSITION OF THE ORDER OF REVOCATION STAYED PLACED ON PROBATION FOR TWO (2) YEARS. While employed as a Licensed Practical Nurse, licensee on several occasions did not follow proper nursing procedures.
2. TERRI LYNN JOHNSTON, L.P.N., #35034, COLUMBIA, MO. REVOKED. While employed as a Licensed Practical Nurse, licensee falsified medical records to obtain demerol for her own personal use.
3. MARY KIMBERLY HAUS, L.P.N., #26620, LAKE WINNIBAGO, MO. REVOKED. IMPOSITION OF THE ORDER OF REVOCATION STAYED AND LICENSE PLACED ON PROBATION FOR THREE (3) YEARS. In July, 1984, while employed as a Licensed Practical Nurse, licensee administered an intravenous push medication of morphine to a patient. Licensee had not been instructed nor trained in a course on administration of IV fluids. Licensee forged initials of an RN on hospital records to make it appear as if an RN had administered the IV medication.
4. CAROLYN FINCH KEENER, R.N., #71266, KANSAS CITY, MO. REVOKED. While employed as a Registered Nurse licensee falsified hospital records in order to obtain demerol for her own personal use.
5. NADENE HELTON MCCLAIN, L.P.N., #26753, KIRKSVILLE, MO. REVOKED. IMPOSITION OF THE REVOCATION STAYED AND LICENSE PLACED ON PROBATION FOR TWO (2) YEARS. While employed as a Registered Nurse, licensee misappropriated demerol from hospital supplies and administered it to herself at home.
6. JUDITH OLCOTT, R.N., #75815, ROCHEPORT, MO. REVOKED. IMPOSITION OF THE ORDER OF REVOCATION STAYED AND LICENSE PLACED ON PROBATION FOR THREE (3) YEARS. While employed as a Registered Nurse, licensee falsified hospital records to obtain demerol for her own personal use.
7. SANDRA WELKER TABAKA, R.N., #76837, ST. CHARLES, MO. REVOKED. IMPOSITION OF THE ORDER OF REVOCATION STAYED AND THE LICENSE SUSPENDED FOR TWO (2) YEARS IMMEDIATELY FOLLOWED BY A PERIOD OF PROBATION FOR THREE (3) YEARS. While employed as a Registered Nurse, licensee diverted demerol from hospital supplies for her own personal use.
8. LINDA TINGSTROM KEELY, R.N., #87593, SHELL KNOB, MO. REVOKED. While employed as a Registered Nurse, licensee falsified hospital records to obtain demerol and morphine sulphate and administered it to herself.
9. LINDA MATTLI LOGAN, R.N., #81553, COLUMBIA, MO. REVOKED. IMPOSITION OF THE ORDER OF REVOCATION STAYED AND THE LICENSE PLACED ON PROBATION FOR FOUR (4) YEARS. Licensee entered a plea of guilty to a sale of marijuana and was placed on probation for five (5) years under the supervision of the State Board of Probation and Parole.
10. PAMELA ARMBRUSTER, L.P.N., #25695, ST. LOUIS, MO. REVOKED. IMPOSITION OF THE ORDER OF REVOCATION STAYED AND THE LICENSE PLACED ON PROBATION FOR TWO (2) YEARS. While employed as a Licensed Practical Nurse, licensee falsified entries on proof of use sheets for percocet and/or percodan and forged the signatures of other nurses to obtain controlled substances for personal use. Licensee frequently documented usage of percodan and/or percocet on proof of use sheets while failing to document the administration to the patient.
11. ANNE LOUISE BORGSTROM, L.P.N., #20812, KANSAS CITY, MO. REVOKED. Licensee violated the Disciplinary Order Issued by the Board on January 21, 1985.
12. MINNIE PAULINE HUGGINS, R.N., #83915, BARRINGTON, IL. NO ACTION TAKEN AT THIS TIME. While employed as a Registered Nurse in Arkansas, licensee failed to document the administration of demerol.

DISCIPLINARY ACTION TAKEN AT THE SEPTEMBER 30 - OCTOBER 3, 1985 BOARD MEETING
CONTINUED

13. CHARLENE BRACKETT DRURY, R.N., #84177, COLUMBIA, MO. REVOKED. By order dated January 20, 1983, this license was revoked but stayed imposition of the order of revocation and placed license on probation for a period of five (5) years with certain terms and conditions. In March, 1985, licensee falsified hospital records while employed as a Registered Nurse by indicating on a patient's record that she received a telephone order for 75 mg. of demerol but licensee did not receive telephone order. Licensee indicated she had administered 75 mg. of demerol to the patient when in fact licensee did not administer demerol to that patient.
14. KAREN OLSEN FRONICK, R.N., #62553, TROY, MI. CENSURED. In April, 1983, while employed as a Registered Nurse in Rochester, Michigan, licensee diverted five (5) ampules of 50 mg. demerol and four (4) ampules of 100 mg. demerol for her personal use. Licensee's Michigan license was suspended.
15. GAYLE COMER PRIVETT, L.P.N., #29408, ST. CHARLES, MO. CENSURED. Licensee failed to properly indicate on hospital records the administration of narcotics and failed to properly document the wasting of narcotics.

RULE CHANGE - FOREIGN NURSE CANDIDATES

4 CSR 200-4.020 Requirements for Licensure

At the September 30 - October 3, 1985, meeting of the Missouri State Board of Nursing, the Board voted to delete the following:

4 CSR 200-4.020, (8), (A), 3, I. - Copy of visa. For an intercountry applicant to be eligible for a temporary permit, the applicant must hold a visa that permits employment.

This means that the applicant no longer needs a visa to apply for licensure.

4 CSR 200-4.020, (8), (A), 4, C. - Temporary permit. A temporary permit may be issued upon written request when all required documents have been presented, evaluated and the applicant has been found eligible to write the licensing examination. The temporary permit will be issued until the date of licensure or until notification that the applicant was unsuccessful on the examination.

This means that the Board no longer issues a temporary permit to foreign nurses who have applied to write the licensure examination. They cannot work until they receive the results from the examination indicating that they were successful.

RN AND LPN RENEWAL NOTICES

RN renewal notices will be mailed from this office around the first of March and LPN renewal notices will be mailed around the first of April. If you have had a name and/or address change, please notify this office so that we can get your renewal notice to you.

Registered Professional Nurse licenses expire on April 30, 1986.

Licensed Practical Nurse licenses expire on May 31, 1986.

Please submit renewal fee as soon as possible after receiving notice to renew so there will not be a delay receiving your 1986-87 license. Thank you.

NOTICE TO EDUCATION PROGRAMS

In order to be employed as a Dean, Director, Coordinator, Faculty Member or to teach in any capacity, the theory and/or practice of nursing, a person must hold a current Missouri license or valid temporary permit. All nursing faculty should present evidence to the program director or chairperson that they hold a current Missouri license to practice nursing.

**OUT OF STATE GRADUATES
POLICY STATEMENT**

The Board received several letters regarding out of state graduates and what is required in order that they may work until and after exam results are received. The Board reviewed these letters at the September 30 - October 3, 1985 meeting and made the following policy regarding out of state graduates.

Out of state graduates who write the exam for the first time in another state are covered under the Nursing Practice Act to practice as a graduate nurse until the results of the exam are received. Out of state graduates need to start the process for licensure by endorsement prior to receiving results of the exam. When exam results are received, the individual will have thirty (30) days to obtain a temporary work permit and apply for licensure by endorsement. If this is not done, the individual is working without a valid permit or license and this is a violation of the Nursing Practice Act.

EXAMINATION DATES

DATES	DAYS	PLACE	APPLICATION DEADLINE
RN February 4-5, 1986	Tuesday-Wednesday	University Plaza, Spfld. Chase Park, St. Louis	December 22, 1985
PN April 15, 1986	Tuesday	Ramada Inn, Jefferson City	March 1, 1986
RN July 15-16, 1986	Tuesday/Wednesday	Chase Park, St. Louis University Plaza, Spfld. Ararat Shrine, Kansas City	June 1, 1986
PN October 15, 1986	Tuesday	Chase Park Plaza, Spfld. Ararat Shrine, Kansas City	August 31, 1986

CSR 200-6.010 INTRAVENOUS FLUID TREATMENT ADMINISTRATION

Final change in Rule voted on and approved at the September 30 - October 3, 1985, meeting of the Missouri State Board of Nursing. Rule change is effective November 11, 1985.

(1) Definitions:

(A) Administration of Intravenous fluid treatment is the therapeutic infusion and/or injection of substances through the venous system.

(B) Administration is the comprehensive activity which includes, but is not limited to: Observing, initiating, monitoring, discontinuing, maintaining, regulating, adjusting, documenting; and assessing, diagnosing, planning, intervening and evaluation.

(C) Intravenous Fluid Treatment Administration is the responsibility of the Registered Professional Nurse, as ordered by an individual licensed in the state of Missouri to prescribe medications and treatments. The Registered Professional Nurse may delegate selected activities associated with the administration of Intravenous therapy. The Registered Nurse may delegate certain of the activities to experienced, qualified, appropriately educated Licensed Practical Nurses in keeping with the Registered Nurse's professional judgment and standards that are established within the agency providing the Intravenous therapy service.

(D) "Under the direction of a Registered Professional Nurse" means that Registered Professional Nurses may delegate Intravenous therapy functions to Licensed Practical Nurses who have passed an approved course. The Registered Professional Nurse does not necessarily have to be on the premises in order for the Licensed Practical Nurse to perform the delegated functions.

(2) Upon completion of a generic practical nursing program approved by the State Board of Nursing, an LPN may observe and monitor Intravenous fluid treatment, maintain the calculated flow rate of Intravenous infusions, discontinue, report and document observations and procedures performed.

(3) In addition to functions identified in (2), Licensed Practical Nurses who have satisfactorily completed an approved course of instruction may perform the following functions and duties relating to the administration of Intravenous fluid treatment under the direction of a Registered Professional Nurse.

(A) Calculating the rate of Intravenous fluid infusions.

(B) Adding parenteral solutions to existing patent Intravenous lines.

(C) Changing Intravenous tubings and dressings.

(D) Initiating intravenous fluid treatment only peripherally and only with devices which do not exceed three (3) inches in length.

(E) Adding, to existing patent intravenous lines, designated premixed medications, via intravenous piggy-back, either by continuous or intermittent methods.

(F) Maintaining the patency of Heparin Locks.

(4) Licensed Practical Nurses MAY NOT perform the following functions or duties related to the administration of intravenous fluid treatments:

(A) Initiating TPN fluids.

(B) Initiating or adding anti-neoplastic agents.

(C) Initiating or adding blood/blood components.

(D) Administering drugs IV Push. (Life-threatening circumstances may necessitate the administration of IV push medications by experienced/qualified Licensed Practical Nurses under the direction of a Registered Nurse or physician.)

(5) Application Procedures for I.V. Fluid Treatment Program

(A) Purpose of Approval: To establish basic preparation for Licensed Practical Nurses to perform the administration of intravenous fluid treatments within the scope authorized by the rules and regulations.

(B) Types of Programs approved.

1. Postgraduate programs offered by colleges and vocational-technical schools.
2. Programs offered by health care facilities which provide intravenous therapy.

(C) Procedure for initial approval:

1. An institution desiring to obtain approval for an intravenous fluid treatment program shall submit a proposal to the State Board of Nursing. The proposal shall be written by and bear the signature of a Registered Professional Nurse who is currently licensed to practice as a Registered Nurse in Missouri.

2. An institution submitting a proposal for initial approval shall include in the proposal any information it deems pertinent, however, the proposal shall contain the following:

A. Objectives of the program. Terminal objectives shall identify behaviors expected of the graduates at the completion of the program.

B. Qualifications of the faculty of the program.

C. Curriculum.

D. Maximum faculty-student ratio in the clinical component.

E. Number of hours of classroom instruction and number of hours of clinical practice under the supervision of a Registered Professional Nurse designated by the sponsoring agency.

F. Description of the training facilities which will be used by the programs. The description shall be sufficiently detailed to establish that the training facilities will meet the standards required of training facilities under these rules and regulations.

G. Mechanism through which the institution will determine that LPN's seeking admission to the program meet the admission requirements established by these rules and regulations.

H. Methods of student evaluation which will be used.

(D) An institution which has previously obtained approval shall comply with any subsequent changes in this rule beginning with the first class which begins the course following the effective date of the rule change. The institution shall submit a report to the State Board of Nursing indicating the manner in which it will comply with the change in the rule. After the State Board of Nursing reviews the report, if the board approves the manner in which the institution will comply, the board shall notify the institution of its approval. If, after review, the board determines that the manner in which the institution will comply is not adequate, the board shall notify the institution of the inadequacies. Following such notification, re-approval of the program will be required before the institution begins its next class.

(E) Program Changes Requiring Board Approval or Notification.

I. All changes in information required to be provided in the initial proposal require board approval. Requests for approval of such changes shall be submitted to the board in writing three (3) weeks prior to the next regularly scheduled board meeting and shall be approved by the board before implementation. Changes in the faculty of the program do not require board approval. The program shall notify the board in writing of faculty changes.

(6) Standards for Curriculum

(A) The purpose of the Intravenous Fluid Treatment Program shall be to prepare Licensed Practical Nurses to perform limited intravenous fluid treatment. The program shall be designed to teach knowledge, skills, and competencies in administration of intravenous therapy which will qualify Licensed Practical Nurses to

perform this procedure safely.

(B) The course shall consist of at least forty (40) classroom hours of instruction and a minimum of eight (8) hours of clinical practice under the supervision of a Registered Professional Nurse designated by the sponsoring agency, including a final written and practical examination.

(C) Course Prerequisites - The Licensed Practical Nurse shall meet the following pre-requisites prior to enrolling in the course:

1. Current licensure as a Licensed Practical Nurse in the State of Missouri.
2. Have taken a pre-test in pharmacology, anatomy, physiology and asepsis to be used as a diagnostic tool to determine level of knowledge.

(D) Faculty Qualifications.

1. Each faculty member shall be currently licensed to practice as a Registered Professional Nurse in the state of Missouri.
2. Each faculty member shall have a minimum of three (3) years clinical experience immediately prior to his or her appointment.
3. Non-nurse lecturers shall have professional preparation and qualifications for the specific subject area in which they are involved.

(E) Training Facility.

1. All classrooms shall contain sufficient space, equipment and teaching aids to meet the course objectives.
2. The facility in which clinical practice and the final practicum will be conducted shall allow students and instructors access to the intravenous therapy equipment and access to intravenous therapy recipients and to the pertinent records for purpose of documentation.
3. There shall be signed written agreement between the sponsoring agency and a cooperating health care facility which specifies the roles, responsibilities and liabilities of each party. This written agreement will not be required if the only health care facility to be used is also the sponsoring agency.

(F) Testing

1. The student shall achieve a passing grade on a final exam which shall consist of written and clinical components.

2. The clinical exam shall include evaluation of the achievement of the clinical objectives of the course.

3. The instructor shall complete the final records and the record sheet shall include competencies and scores.

(G) Records

1. The agency conducting the intravenous course shall maintain the records of the individuals and shall submit to the Missouri State Board of Nursing the names, addresses and license numbers of all individuals who have successfully completed the program.

2. A copy of the final record shall be provided to the Licensed Practical Nurse.

3. The agency conducting the intravenous therapy course shall award a certificate documenting successful completion of the approved program by the Missouri State Board of Nursing to the Licensed Practical Nurse, upon successful completion of the course.

(7) Intravenous Fluid Treatment Administration Course Guidelines - An intravenous fluid treatment administration course shall have the following components:

(A) Review of the Missouri Nursing Practice Act and the policies and procedures of the clinical agency where practical experience is received.

(B) Structure of the circulatory system including site and function of the veins used for venipuncture.

(C) Relationship between intravenous fluid treatment administration and the body's hemostatic and regulatory functions, with attention to the clinical manifestations of fluid and electrolyte imbalance and cellular physiology.

(D) Principles of infection control in intravenous fluid treatment administration.

(E) Identification of various types of equipment used in intravenous fluid treatment administration with content related to criteria for use of each and means of trouble-shooting for malfunctions.

(F) Principles of compatibility and incompatibility of drugs and solutions.

(G) Nursing management of special intravenous fluid treatment administration procedures that are commonly used in the clinical setting, such as heparin lock.

(H) Procedure for venipuncture, including psychological preparation, site selection, skin preparation, puncture, anchor, collection of equipment and documentation.

(I) Maintenance of Intravenous fluid treatment administration system: discontinuing Intravenous fluid treatment administration, monitoring infusion, changing containers and tubing, care of site, etc.

(J) Nursing management of the patient receiving drug therapy, including actions, interactions, adverse reactions, methods of administration and assessment.

(K) Signs and symptoms of local and systemic complications in the delivery of fluids and medications and the preventive and treatment measures for those complications.

(L) Calculations of fluid and drug administration rates.
